Purpose of this worksheet: To provide a customizable format water systems can use to track materials for each service line in their distribution system.

General Instructions: Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The worksheet includes required and recommended elements; the columns with the RED shading are required by the LCRR and/or Ohio EPA. The BLUE columns are recommended. Informational notes for columns are in Row 12; Worksheet examples are included in rows 14 & 15. This template is formatted for approximately 10,000 rows. The +/- button in the lefthand margin can be used to hide and unhide the PWS information Row.
