

MEN'S SUPPORT GROUP

The purpose of our Men's Support Group (MSG) is to allow men in confidentiality, the freedom to participate and discuss issues related to mental and emotional behaviors as we explore 4 scheduled topics on the following: **1. Self-Control, 2. Relationships, 3. Leadership, and 4. Fatherhood**, which unfortunately, can be destructive if gone without appropriately addressing or making necessary changes. However, it our belief that having the support from other men as we share our experiences, we greatly aid and assists each other, with the guidance of our MSG facilitator, as we learn how to make positives changes to their lives.
